

Submission Checklist:

A description of the proposed research on bird species. (See protocol document).

A description of how the research is related to the management of bird species.

A detailed budget statement, including funds committed from other sources.

Two letters of reference describing the qualifications and suitability of the applicant to complete the proposed research.

Graduate students must submit transcripts of undergraduate and graduate work completed to date of the project.

A letter from an appropriate qualified supervisor acknowledging responsibility for supervision of the research.

Completed application form.
