2. Complete Program Title Civil Technology Undergraduate Certificate

3. Type of Program

Undergraduate

Graduate

Certificate

Diploma

Program Description: This program is designed to provide students with the knowledge and skills necessary to enter the workforce as civil technicians. The program includes coursework in mathematics, science, and technical drawing, as well as hands-on experience in the field.

Program Objectives: Upon completion of this program, students will be able to: 1. Apply mathematical concepts to solve problems in civil technology. 2. Understand the principles of civil engineering and construction. 3. Create technical drawings and plans for civil infrastructure projects.

Program Requirements: Students must complete a minimum of 12 credit hours of coursework, including: 1. Calculus for Engineers (3 credits) 2. Physics for Engineers (3 credits) 3. Technical Drawing (3 credits) 4. Introduction to Civil Engineering (3 credits)

Program Evaluation: The program will be evaluated annually by the faculty and students to ensure that it remains relevant and effective. The evaluation will include a review of student outcomes, program costs, and feedback from employers.

Program Funding: The program is currently funded by the state of Texas through the Higher Education Coordinating Board. The program is also eligible for federal funding through the Department of Education.

Program Contact: For more information about this program, please contact the program director at [phone number] or [email address].

Program History: This program was first established in 1990 and has since become one of the most popular programs at the university. It has a strong track record of producing graduates who are well-prepared for the workforce.

Program Impact: The program has a significant impact on the local economy by providing a steady stream of skilled workers to the construction industry. It also provides a pathway for students to enter the workforce and earn a living.

Program Future: The program is currently under review for potential expansion and improvement. The faculty and students are working to identify areas for growth and to ensure that the program remains at the forefront of civil technology education.

Program Conclusion: This program is a valuable asset to the university and the community. It provides students with the knowledge and skills they need to succeed in the workforce and to contribute to the growth and development of the state.

Program Appendix: The following documents are attached to this request: 1. Program Curriculum 2. Program Budget 3. Program Evaluation Report

Program Signatures: This request is signed by the program director, [Name], and the faculty representative, [Name].

Program Date: This request was prepared on [Date].

Program Contact: For more information about this program, please contact the program director at [phone number] or [email address].

Program Conclusion: This program is a valuable asset to the university and the community. It provides students with the knowledge and skills they need to succeed in the workforce and to contribute to the growth and development of the state.
