program implementation Coordinator UIC Master of

Agency responsible for present enrollment determine? Who was surveyed and how?

Brower Consulting Services polled recent UAS and UAF students and alumni to gauge student interest in an MMP program. In April 2001, Brower Consulting Services conducted a Survey of Students, Alumni, and Organizations. A report on the methods and

10 : Master of Marine Policy (MMP)

Ten years from now

Assuming that the demand for marine policy specialists keeps pace with the average rate of increase in federal regulation, we estimate that the annual demand ten years hence will be 24-37 positions in Alaska.

How have positions been filled to date?

Agencies and organizations have hired from a national pool of policy analysts. They have hired graduates of the recently discontinued UAF MS Resource Economics program, the UAF MS and PhD Fisheries programs, and the UAF MS Natural Resources and Environment program. Agency leadership indicates a preference for hiring individuals who have worked or studied in Alaska. However, they have more positions than they can fill with Alaska-trained analysts.

Resource Impact

Budget
