Overview of UAOnline

For over 15 years UAOnline has been an essential part of the University of Alaska

Statistical Information from Survey Questions

Percentage of Students Leaving Feedback by Campus

Point of Access

Type of Connection

When asked what type of connection was used to access UAOnline, the majority (66%) stated that they accessed the service through a private ISP, while 31.9% of respondents said they used a UA connection and 2.1% declined to respond.

What Was Accessed

Throughout the survey period, the reported top five most frequently visited areas of the site were:

1. Account Information
2. Registration
3. Financial Aid
4. Grades
5. Unofficial Transcript

These results have not changed in popularity from the past few years. Account Information is the most accessed part of the website at 69%. This is followed by Registration with 55.8% and checking Financial Aid at 51.2%.

How Students Rate UAOnline

Student Requests

The survey contains open-ended questions inviting comments about UAOnline. One question posed was whether or not there are any services that students would like to see added to the site. A highlight of the most frequent feedback received is listed below, grouped by category. The top five most requested features are noted in parentheses by rank. Responses marked with an asterisk (*) are requests that are the same as requests from previous years.

Student Comments

The survey has open-ended questions where students are able to reply freely. The following section lists those questions, as well as several of the student responses to each. Responses are followed by the originating campus in parentheses.

How did you like using UAOnline? Was the process easy to use? Instructions clear?

- x It is very easy to use with clear instructions. Anything that isn't understood can be easily learned by contacting the admin office. They are always very helpful, both on the phone and in person. (Mat-Su)
- x It takes a while to find what you are looking for but I feel like I have to click several links to get where I want to go. (Center for Distance Education)
- x Easy Peasy. (Chuckchi)
- x I like using UAOnline because it connects with all the UA colleges. The process for me isn't that easy to use because I am new to the website and hard for me to find the things I am looking for, but the instructions were clear. (Fairbanks)
- x My experience so far using this site has been a pleasant one. I haven't had any trouble finding my way around or retrieving information that is offered. This kind of worry/stress free time spent online can make a huge difference in which direction my time after goes. Thanks, you are appreciated. (Interior Aleutians)
- x At first it can be confusing but when advisors show you how it works, it's easy to pick up on. (Kuskokwim)
- x UA Online is very helpful. The process was easy to use. Instructions are pretty clear. (Northwest)
- x I feel that the site is good in the fact that it has all of the information that I need, but I rarely have any desire to come to UAonline. I find it harder to navigate than I need, outdated in its coding, and honestly just don't find it appealing. It really is a good site and useful when it comes to getting information. It could just use a touch up. (Prince William Sound)
- x UAOnline is beneficial. Process is easy to understand. The instructions are clear. (Bristol Bay)

Summary

The success and support of UAOnline continues to remain strong. UAOnline is continuously being improved thanks to the feedback of students and staff. UAOnline is the portal for incoming and current students, as well as faculty and staff. Over half of UAOnline users assessed the site once a week and 93.7% of users rated UAOnline positively with over half preferring to go through UAOnline for University business. The majority of users spent 20 minutes or less on UAOnline, with 88% finding what they were looking for. This goes to show how much of a key component UAOnline is to the success of University of Alaska students. However certain parts of UAOnline should be looked for improvement, notably in the areas of students' requests for features.
